

We do accept some dogs into our home in South Carolina for therapy and rehoming. We know that it doesn't always work out, and although owners should contact their breeder for assistance or rehoming, sometimes the breeder cannot be located or is unable to help. We don't judge, and if you need to turn in a whippet we will do our absolute best to find him a wonderful new home.

Rehoming your whippet

Please contact Jo for information. We will need to know who your veterinarian is and some details about your dog's health. Email Jo at johannah@timbreblue.com or call 803-445-1713.

Finding a whippet

We have contacts with most of the people who breed whippets, or can find someone near you who has a whippet available. Please feel free to contact us with your request. The first thing to do is to [fill out our questionnaire](#).

Thank you!
